Sub: National Cyber Security Awareness Month

Securing cyberspace is both a national and a global challenge. The ongoing COVID-19 pandemic has further exacerbated their problem due to an exponential increase in online transactions and Work-from-Home environment. While we are more interconnected than ever before, the situation has provided the perfect storm for cyber criminals to target individuals, industry, academia and governments.

October is globally marked as National Cyber Security Awareness Month (NCSAM) with a view to educate the public and private sector and increase cyber resilience of the Nation.

In this regard, as directed by the competent authority, I am forwarding herewith communicate received from Department of Higher Education, Ministry of Education vide their letter F. No. C.29011/2/2019-CDN dated 12th October 2020 on the above subject which is self-explanatory.

All members of faculty, staff and students are requested to take cognizance of the communicate received from the Ministry with an aim to be aware on the subject and also requested to make others aware of the above fact.
