ABOUT THE CONCLAVE: The Academic Industry Conclave is a forum for industry representatives to exchange insights and discuss future directions. Simultaneously, the scholars and students will not just be passive participants but active learners gaining practical experience. This unique opportunity will inspire them to participate in resolving industrial, social, and economic problems. NITTTTR, Kolkata, owes Industry Academia integration as a valuable strategy to enhance students' overall growth by providing them with more industry exposure. Similarly, Women's Polytechnic, Hapania, Tripura has also been working in the same direction for their diploma students. Thus, this conclave will help the students to get the right direction to build their career.

ABOUT US: The Journey started on January 11, 1965, as Technical Teachers' Training Institute (TTTI), Eastern Region as an autonomous and fully funded institute by the Govt. of India, Ministry of Education. Later in 2003, TTTI (ER) was upgraded and renamed as National Institute of Technical Teachers' Training and Research (NITTTTR), Kolkata. It provides in-service training to technical teachers and staff of degree and diploma level institutions, focusing on activities such as education, short-term training, curriculum development, learning resources development, research and development, and extension services and consultancy. Recognized by AICTE, the institute offers AICTE-approved, two-year post-graduate degree programs and is associated with national-level projects, serving as a nodal agency for various initiatives. With highly qualified faculty and well-equipped facilities, NITTTTR Kolkata has extended its reach through extension centres in Guwahati and Bhubaneswar. NITTTTR Kolkata also serves nationally and internationally. Recently, NITTTTR Kolkata has been conferred Deemed to be University under Distinct Category by the Ministry of Education, Government of India.

WOMEN'S POLYTECHNIC, HAPANIA: Women's Polytechnic, Hapania was established as the first Institute of its kind for promoting technical education to the women of Tripura in the year 2003 with the pioneering branch of Information Technology, approved by AICTE and affiliated to WBSCTE, Kolkata. In the year 2004, two additional new branches, namely, Medical Lab Technology and Fashion Technology were incorporated. At present the polytechnic institute is affiliated to the Tripura University and offers five diploma engineering programmes approved by AICTE with an intake capacity of hundred and thirty students per year.

Chairman, AIC 2024
